CLEVELAND WINS FIRST GAME OF WORLD SERIES

SENATOR BORAH WILL CONTINUE CAMPAIGN WORK

Reports of His Desertion of
Harding-Coolidge Ticket
Are Premature

(By Associated Press)
MARIETTA, Ohio, Oct. 5.—In answer to widely published reports that Senator Borah would quit the Republican campaign, Senator Borah's headquarters made public today a telegram in which Borah declared he would continue his work for Republican success.

The message addressed to Senator Harding follows:

"In view of reports I wish you to know that my speeches in the future will be along the same lines as at Dayton and in the senate. I want to see you win and I want to see the league scheme defeated. In my own way I shall devote my time to the achievement of both propositions."

SKELETON UNDER TRUCKEE HOUSE

TRUCKEE, Oct. 5.—Something of a sensation was caused here by the report of the finding of the skeleton of a woman buried under a house on the hill back of Main street.

The bones were in a short, narrow, shallow grave and plainly indicated that the body had been dismembered. The sheriff and district attorney's offices in Nevada City were notified and an investigation is being made.

It is stated that an aged Frenchman, who owned and occupied the place for about 25 years, recently sold out and that the new owner made the discovery while excavating for a cellar. The Frenchman is a bachelor and no women were ever seen about the place. It is believed that the skeleton may have been placed there prior to his occupancy.

Takes Option on Fallon Oil Land

Faith in the Fallon oil fields is expressed by Harry C. Stimler, who returned this morning from a trip of several days, during which he took options on five sections of patented land for Boston parties. One of these sections is adjoining the holdings of the Fallon Oil & Gas company, which was the pioneer company in the field. These sections are patented under the old law which carries with it all mineral rights. The Fallon Oil & Gas company, the Weaver company, the Diamond and the Big Four are fully financed, according to Mr. Stimler, and their stock is off the market. The Fallon company has sealed up the original hole and are spudding in a new well. They have ordered a standard drill, and with their new equipment expect to be able to reach the same depth in 15 days which in their first well took them one year. Mr. Stimler reports that he was given every opportunity to examine and investigate the actual showings of the Fallon

held and that he is convinced that they have oil there. The owners of business blocks in Fallon are remodeling them into office buildings and the town is crowded with oil experts from all the different fields of the United States. Permits are being received now by companies in that field, and everything seems ready for real development work to be pushed within a short time. When asked about the effect of an oil boom on the mining industry, Mr. Stimler said: "In my opinion, an oil boom will aid the mining industry by bringing into the state a vast amount of money from outside cities and by the turning loose of a large amount of capital in Nevada. If fortunes are made in oil, many of them will be reinvested in mining properties in the state. The people of Fallon are banking up the oil boom with their money and people of Tonopah have a like opportunity, for the field lies close to this city."

The Farmers bank of Minden reduced from \$80,000 to \$63,000.

The Carson Water company, which was assessed at \$88,888, was reduced to \$80,000, this following a hearing showing the earning capacity and expense of the company.

In the assessment of the Copper Belt railroad, which was heard Friday, the tax commission gave temporary relief, as the assessment was reduced from \$275,000, as fixed by the board of equalization, to \$200,000. The original assessment of the ferry county assessor was \$250,000.

The Nevada-California Power company, furnishing power and lights to southern Nevada is asking for general reduction of assessed valuation, basing its petition on net earnings for the year which amounts to approximately \$200,000. It is maintained, through its attorneys, that the depreciation alone during the fiscal year ending in July amounted to \$70,000. This matter is taken under advisement by the commission, as the figures of the condition are held in the public service commission, where a hearing is now pending.

A detailed report of the assessed valuation of the state for the past five years is being prepared. This report will show that in spite of an increase in valuation to \$9 and 100 per cent, the entire assessed valuation of the state will show a decrease of approximately \$3,000,000.

SCHMIDT WINS PLACE ON BALLOT

Henry C. Schmidt was chosen as the Democratic nominee for the office of county commissioner, long term, this morning when he and J. J. This matter of decision was agreed to by their supporters and to the Democratic county central committee. Thomas Lind, who flipped the coin, and McVeigh called heads, but it fell a tails up when it hit the floor, thus giving Schmidt the place of the ballot. If again without saying that two supporters of McVeigh will give their support to Schmidt in the election on November 2.

Hinchman of the Tonopah & Tidewater railroad, who has been here for the past few days accompanied by General Agent Asplund, discussing the situation. Continuing, Mr. Hinchman said: "In conducting the operations of the Halfway Goldfield railroad as a continuation or part of the Tidewater, it will be our policy to improve the service wherever business and revenue, permit, and we believe with fair advantage that we can maintain an entirely satisfactory service and comparable with that in and from the north. We hope that the public, now being more familiar than ever with the railroad situation, and having come to the realization of what a serious blow the abandonment of the southern connection would be, will continue
